Clinical Competencies:

Clinician: Please rate your personal perception of your current skill and ability with the following items related to HIV care and treatment. There is no assumption that your ratings should necessarily be at "a certain level." Rather, your own perceptions as to your comfort, skill, and continuing education/training needs will be inferred from these answers, and specific, tailored educational programs planned accordingly. **This information will be shared only with the physician trainers and the Education Coordinator of the Project.** Summary data, **without any identifying information**, may be shared with other members of the Project team.
