Administrative, Workplace, and Staff:

Quality Management: Technical Assistance Manual. “Offers a framework to demonstrate quality care and provides specific information and tools that will help grantees to plan, design, measure, assess, and improve performance.

Online: <ftp://ftp.hrsa.gov/hab/QM2003.pdf>

Primary Care Assessment Tool - Support Services Module. “Examines provision of support services (case management, psychosocial and mental health services, and substance abuse and outreach services). Addresses consumer involvement. Includes a client panel interview form. The 4 PCAT modules assess effectiveness of funded primary health care providers by examining grantee practices required by the CARE Act legislation, regulation or program expectations, or recommended as good practice.
